Monthly update for IMS members

IMS Bulletin January/February 2025

The PDF version of the January/February 2025 *IMS Bulletin* is online now: **click here** to download the complete PDF. You can also read selected articles at https://imstat.org/news/.

Contents include:

- Members' news: Susan Murphy wins Mosteller Award; John Aston elected FRS; Edward Kennedy wins Spiegelman Award; SIAM Fellows Art Owen and Mark Squillante; ISI elected members; Jim Berger selected as Hagler Fellow; Bhramar Mukherjee ENAR President-Elect
- Radu's Rides: On Timing
- Report: IMS–CANSSI event
- Preview: Ying Jin, Lawrence Brown PhD Student Award winner
- Student Puzzle 54
- New Researchers Group
- Young Statisticians Europe
- Obituary: William (Bill) Strawderman
- XL-Files: Seeking Simplicity in Statistics and Complexity in Wine (Part 1)
- Rousseeuw Prize presentation
- IMS Textbooks, Monographs: Propose a Volume
- Recent papers: *Electronic J. Probab.*, *Electronic Comm. in Probab*.; *Brazilian J Probab. and Stat* call for papers

The deadline for the next issue is **February 1, 2025**, then March 15, 2025. Contact us if you want to submit an article, an obituary, some news or an announcement. Email Tati Howell at bulletin@imstat.org.

Apply for a Travel Award to an IMS sponsored or co-sponsored meeting

Applications are open for two types of travel awards. The IMS Hannan Graduate Student Travel Award funds travel and registration to attend (and possibly present a paper/poster at) an IMS sponsored or co-sponsored meeting, and are for IMS members who are graduate students (seeking a Masters or PhD degree) studying some area of statistical science or probability. If you are a New Researcher (awarded your PhD in 2020–24) looking for travel funds, you should apply for the IMS New Researcher Travel Award to fund travel, and possibly other expenses, to present a paper or a poster at an IMS sponsored or co-sponsored meeting. Deadline February 1, 2025.

Nominations open for Fellows, Carver

Is there someone who you think deserves recognition for their achievements, or their service to IMS? There is still time to nominate someone for IMS Fellowship (deadline January 31) or the IMS Carver Award (deadline February 1).

IMS Child Care Initiative

Are you bringing a child to the 2025 IMS Annual Meeting, at JSM Nashville (August 2–7, 2025)? If so, you can apply to the IMS Child Care Initiative and the IMS will reimburse 80% of the costs of privately arranged child care (for a dependent under 13), up to a maximum of US$250 per family. Priority will be given to those presenting papers or posters at the meeting. The application deadline is June 1, 2025.

IMS Sponsored and Co-sponsored Meetings

NEW: The Tenth Workshop on Biostatistics and Bioinformatics will take place May 9–11, 2025, in Atlanta, USA. Biostatistics and Bioinformatics have been playing very important roles in scientific research fields in recent years. The goal of this tenth workshop is to stimulate research and to foster the interaction of researchers in the research areas. The keynote speaker is Dr. Heping Zhang, the Susan Dwight Bliss Professor of Biostatistics, Professor in the Child Study Center and Professor of Statistics and Data Science at Yale University. A short course, "Tutorial on Deep Learning and Generative AI," taught by Dr. Haoda Fu, will be offered as a part of the workshop program on the afternoon of Friday, May 9, 2025. See the call for papers on Topics in Big Data Analysis, Biostatistics and Bioinformatics.

The Seminar on Stochastic Processes 2025 will be held from March 20-22, 2025, with tutorial lectures delivered on March 19, 2025. It will be hosted by Indiana University, Bloomington. The local organizers will be Wai-Tong (Louis) Fan, Nathan Glatt-Holtz, Elizabeth Housworth, Russell Lyons, and Jing Wang. The invited speakers will be Adrián González-Casanova, Mariana Olvera-Cravioto, Jinyoung Park, Simon Tavaré, Maria Eulália Vares (SSP Founders Lecture), and Ron Peled (SSP tutorial lecturer). Details to follow.

The four-day 2025 ENAR/IMS Spring Meeting will be held in New Orleans, USA, from March 23-26, 2025. The meeting brings together researchers and practitioners from academia, industry and government, connected through a common interest in Biometry. Register here. The ENAR 2025 Presidential Invited Address ("Interdisciplinary Collaboration, Statistical Leadership, and Methodological Research") is by Richard Cook, University of Waterloo.

The 2025 WNAR/IMS meeting will be in Whistler, B.C., Canada at the Westin Resort & Spa from Sunday, June 15 through Wednesday, June 18. Invited session proposals are being accepted until January 15, 2025, using this form. Details to follow.

IMS Textbook:

Introduction to Malliavin Calculus
by David Nualart and Eulalia Nualart

This textbook offers a compact introductory course on Malliavin calculus, an active and powerful area of research. It covers recent applications, including density formulas, regularity of probability laws, central and non-central limit theorems for Gaussian functionals, convergence of densities and non-central limit theorems for the local time of Brownian motion. The book also includes a self-contained presentation of Brownian motion and stochastic calculus, as well as Lévy processes and stochastic calculus for jump processes. Accessible to non-experts, the book can be

used by graduate students and researchers to develop their mastery of the core techniques necessary for further study.

Member price with 40% discount is $84.00 for the hardback (non-member price $140.00), $28.19 paperback or ebook (non-members $46.99).
